PROFESSIONAL SUMMARY

Artificial Intelligence and Machine Learning Engineer with hands-on experience in **Computer Vision, Deep Learning, and Full-Stack Web Development**. Proficient in **Python, Java, TensorFlow, OpenCV, Spring Boot, and React.js**, with experience building AI-powered applications and responsive web solutions. Passionate about developing scalable software solutions and applying Artificial Intelligence to solve real-world problems.

EXPERIENCE

Solar Bee

June 2026 – Present

Web Development Intern

Bengaluru, India

- Developed **responsive web applications** using **HTML, CSS, JavaScript, and React.js**, ensuring **cross-browser compatibility** and mobile responsiveness.
- Built **dynamic user interfaces**, integrated **REST APIs**, and optimized application performance to deliver a seamless user experience across multiple web modules.
- Collaborated with the development team using **Git/GitHub** for version control, debugging, testing, code reviews, and implementing new features while adhering to industry best practices.

PROJECTS

Weapon Recognition using Images of Wound Patterns A Forensic Perspective

- Developed a **CNN-based ensemble learning model** to identify weapons from wound pattern images for **forensic and medico-legal investigations**.
- Applied **image preprocessing, feature extraction, and deep learning** techniques to improve classification accuracy and model reliability, and overall prediction performance.
- Evaluated model performance using **accuracy, precision, recall, and F1-score** while experimenting with different CNN architectures to enhance prediction performance.

Image Classification using Deep Learning

- Built image classification models using **VGG, ResNet, and EfficientNet** CNN architectures for multi-class image recognition.
- Improved model performance through **data augmentation**, preprocessing, and evaluation using standard accuracy metrics.
- Compared the performance of multiple **CNN architectures**, analyzed classification results using **confusion matrices** and **accuracy metrics**, and selected the best-performing model based on evaluation metrics.

Object Detection using Machine Learning

- Implemented real-time object detection using **YOLOv8** and **SVM** for accurate object localization and recognition.
- Optimized **feature extraction** and **model performance** to improve **detection speed** and **accuracy** across **diverse datasets**.
- Evaluated detection performance using **IoU (Intersection over Union), Precision, Recall, and mAP** metrics to improve object localization and detection accuracy.

EDUCATION

Godutai Engineering College for Women, Sharnbasva University

2022 – 2026

B.Tech in Artificial Intelligence and Machine Learning | CGPA: 9.1

Kalaburagi, India

Shree Guru Independent PU College

2021

Pre-University Course (PUC) | Percentage: 83%

Kalaburagi, India

TRAINING & INTERNSHIPS

KodNest

Feb 2026 – May 2026

Java Full Stack Trainee

Bengaluru, India

- Completed hands-on training in **Core Java, Advanced Java, OOP, Collections, Exception Handling, Multithreading, JDBC**, and **SQL** through practical coding exercises and projects.
- Developed **full-stack web applications** using **HTML, CSS, JavaScript, React.js, Node.js**, and **MySQL**, while strengthening **Data Structures and Algorithms (DSA)** through **coding practice**.

ICT Academy with Infosys

Aug 2025 – Sept 2025

UI/UX & Front-End Development Trainee

Kalaburagi, India

- Completed hands-on training in **UI/UX Design, HTML, CSS, JavaScript**, and **React.js** to build responsive and interactive web applications.
- Designed **intuitive user interfaces**, converted **UI/UX designs** into **functional web pages**, and enhanced **debugging, teamwork**, and **problem-solving** skills through practical projects.

TECHNICAL SKILLS

Languages: Java, Python, JavaScript, SQL.

Frontend: React.js, HTML5, CSS3.

Backend: Node.js, Express.js, REST APIs.

Frameworks & Libraries: Spring Boot, Hibernate, Django, TensorFlow, OpenCV.

AI/ML: Machine Learning, Deep Learning, Computer Vision, CNN, Image Classification, Object Detection, Image Processing.

Databases: MySQL, MongoDB.

Tools: Git, GitHub, VS Code, Postman.

Concepts: DSA, OOP, DBMS, Operating Systems, Computer Networks

Soft Skills: Problem Solving, Analytical Thinking, Communication, Teamwork, Collaboration, Adaptability

CERTIFICATIONS & ACHIEVEMENTS

- **Claude with Amazon Bedrock** – Anthropic Certification | 2026
- **Claude with Google Vertex AI** – Anthropic Certification | 2026
- **AI Fluency: Framework & Foundations** – Anthropic Certification | 2026
- **Poster Presentation – Second Runner Up** at **IBM ICE Day** for presenting the topic **Chatbot** at Sharnbasva University | 2025
- **Hackathon Participation Certificate** – Participated in **#EnlightenCode:2024 Illuminating Solutions** and worked on the problem statement **Language Translation** | 2024
